CSOSP CASES

No. 1040

The problem seems to be to get the division with the authority to take the necessary action.

Recommend that memo be prepared for the signature of Chief, [REDACTED] Staff stating that this proposal has been received in the CSOSP Program and that it appears to have merit as far as most of the evaluators are concerned. The memo should ask EE Div to take the nec. action and to advise results so that the suggester may be considered for award action.

25X1A

Or, take to [REDACTED] for appropriate action.

New Case - name: [REDACTED]

Obtain policy decision of [REDACTED]

[REDACTED] - new case

Send to TSD [REDACTED] for determination as to whether or not this device is feasible or has been considered before. Then turn over to Special Panel with any views and comments that [REDACTED] may have.

No. 1048

Get Chief, [REDACTED] approval and DDP's views - thence possible referral to the DCI and National Security Council.

It seems that a Certificate of Appreciation was felt deserving to this suggester at one time. Do you still feel the same way? All you have to do is to recommend such recognition to the Special Panel.

No. 1036

SAS is supposed to obtain the views of State and ICA to determine whether or not this idea is feasible.

No. 61-1000

- No. 1011 - Would you not want to obtain the views of CI Staff on this proposal?
- No. 1016 - Why not an award?
- No. 1022 - It seems that a statement should be obtained to perhaps revise that quoted statement of [REDACTED] the turn down letter. Do we really want to admit our lack of capacity on certain projects? Or, maybe if we have a lack of capacity the suggestion may really have merit and we ought to do something about sharpening up our capabilities and operational assets. 25X1A
